Application for the Honors Project Enrichment Course

Please return to the library by October 15!

Please complete the following questions by attaching a separate sheet of paper if necessary

- Describe your expectations of the Honors Project Seminar course.

- Describe a time when you acted as a self-directed learner. Reflect on your challenges, successes, and strategies.

- Elaborate on the thinking skills and Habits of Mind you possess that will contribute to your success in the course.

- Describe the ways in which you show yourself to be an Honors student in terms of integrity, trustworthiness, and responsibility.

As a participant in the Honors Project Enrichment Class, I will utilize my independent time wisely, follow all library and classroom expectations, and complete my assignments/research project on time. Failure to do so will jeopardize my chance to participate in the National History Day regional competition in March.

I understand that regular classroom assignments and participation takes priority over Honors Project and that any of the above teachers can revoke my enrollment in Honors Project if a significant decrease in achievement in their class appears to be caused by my participation in Honors Project.

Student Name (printed) _____

Student Signature_____ Date: _____

Parent Signature_____ Date: _____
